Educational Qualification

Summary

I'm graduated the majoring of technical informatic, more experience in my jobs relate with the major. the field of informatics engineering slowly made me interested and challenged in carrying out my daily work routine.

Years of experience:

18 years

Training, Project and Achievement

Have attended on various training, includes the following topics:

- Courses Built Up Multi media impact at Unisbank
- Courses Windows 2003 Server at Unisbank
- Training Cisco IP phone at Telkomsel
- Training Avaya PABX at Infomedia
- Training telkomsel CRM Application Project Service Telkomsel
- Training ISO 2008 at Infomedia
- Training SAP at Infomedia Nusantara
- Training PHP maker at Infomedia Nusantara
- Training basic scrum at graha XL kuningan

Project

- Application Daily Productivity agent 101 Esia
- Application CWC internal, CHO web CC Tsel, monitoring TSEL IBC
- Bambideal.id, ERP Gogo Mall, CRM Digital Yamaha, Microservice Warehouse Hanadora
- PXsystem2, website padigroup, eprocurement, android infus hospital, web intranet

Achievement

- The best IT august 2015
- IT Manager 2016

Work Assignments

February 2021 to Present

ITENGINER PMO,PERKASA

Duties: As a Systems Analyst and System Control Project Manager, I analyze existing information systems for clients and build new ones, create Global Design Flows (SOPs) or Functional User Designs, design User Interfaces, Database Tables, and create Technical Documentation. I support SIT, UAT, and application or product implementation, as well as create User Guide documentation and training for User Socialization using Draw IO, Google Spreadsheets, and MS Office. Other duties include maintaining the financial flow for the Project Financial System implementation, maintaining and maintaining the procurement system flow for household gas network development projects throughout Indonesia, maintaining and maintaining the material management system in all Citygas Projectan warehouses in each Project Area throughout Indonesia, monitoring implementation through several applications used (Simacgas, Popay, IPRO, Premier, and the SAP system), monitoring and evaluating the progress of the Project's financial realization through Spreadsheets, and following up on the procurement and payment process directly through Corporate email.

General Project Team Duties: Assist and support in determining project requirements and schedules, leading System Analysts, and providing progress reports

Duties: Technical Support handle and maintenance installation Software and hardware

The screenshot shows the 'Laporan Pemasangan Regulating Station' (Report on Installed Regulating Station) page from the 'ERP CITY GAS' system. The page title is 'Laporan Pemasangan Regulating Station'. Below the title, there are links for 'Home', 'Laporan', 'Laporan Pemasangan Regulating Station', 'Bantuan', and 'Logout'. There are also 'Batal' and 'EXPORT EXCEL' buttons. The main content area displays a table titled 'DAFTAR PEMASANGAN RS' (List of Installed RS). The table has columns for 'ID', 'Pemasangan', 'Name', 'ID', 'Name', 'Foto', 'Rata', 'Rata', 'Name', 'Name', and 'Photo HP'. One row is visible, showing data for a station named 'NURUL' with ID '33-09-3331'. To the right of the table, there is a photo of a man and some text: 'PENGAWAS RS', 'PT CEGESUMBERTEKNOLOGI', and 'REKOMENDASI'. At the bottom right, there is a small logo with the text 'PERMATA JAYA'.

A screenshot of the Angular CLI interface. On the left, a tree view shows a component structure: 'app' -> 'app.component.html', 'app.component.ts', and 'app.module.ts'. The 'app.module.ts' file is selected and displayed in the main pane, showing its code. On the right, a code editor window displays the 'app.module.ts' file with syntax highlighting and code completion suggestions.

EXPERIENCE

SISGESIT ERP GOGOMALL HOME SHOPPING

The screenshot shows the SISGESIT ERP GOGOMALL Home Shopping interface. On the left is a vertical menu bar with options like User Management, Manager, Sales ETO, Tools Report, Business Trial, and Helpdesk. The main area features a cartoon character and the title "Superadmin". Below the character are buttons for Home, Overview, Sales Data, Sync Rating, and User R. At the bottom, it says "Developed by: IT Division @SISGESIT" and "Jln. T. Soeharto Blok D No. 10 RT. 01 RW. 01".

ERP MANUFACTURE

The screenshot shows the PT Padi Group ERP Manufacture interface. It displays a grid of nine modules: optiCrm (red), optiRoad (green), optiForwarding (grey), optiWms (dark green), optiProduction (light blue), optiFinancial (dark blue), optiStatistic (red), optiSystem (pink), and optiPortal (light green). Each module has a corresponding icon.

MARKET PLACE BANBIIDEAL

The screenshot shows the MARKET PLACE BANBIIDEAL interface. It includes a search bar with placeholder text "CarryBabak / Makanan" and a button "Search". Below the search bar is a navigation bar with links: Home, Katalog, Daftar Produk, Impor, Pengiriman, and Pengembalian. A sidebar on the left shows categories: All, Kesehatan, Kecantikan, Kebutuhan Rumah Tangga, and Keseharian. The main area displays a grid of product thumbnails, including "Lip Cream Honey & Honey" (Rp 40,000), "Milk Bath Honey Caramel" (Rp 100,000), and "Milk Bath Honey Caramel" (Rp 2,000,000).
